

TOUCH SCREEN CONTROLLER

TECHNOLOGY
MEETS
SIMPLICITY

- Quik-Cure™ is built into the system. The bake cycle can be set to operate according to user preferences.
- Includes a “Recipe” Feature – This feature allows the user to set the booth operating specifications per the paint manufacturer requirements. It can also be customized to retain painter preferences.
- Allows you to maintain ideal pressures for spraying and curing cycles and alerts you to when it is time to perform routine maintenance operations.
- Alarms pop up automatically with detail of alarm and solution. – Report shows real time and date indicating when alarms occurred.
- Saves operational downtime – This touch screen troubleshoots some of the most common problems automatically.

The Hi-Tech Touch Screen Control Panel from Garmat® USA

The state of the art technology utilized in this touch screen allows the user to simply touch the part of the booth graphic that requires more information and simple easy-to-read menus pop-up, offering further assistance.
